Dear colleague,

It is my pleasure to introduce you to the Good School Toolkit and the opportunities it offers. The Toolkit enables teachers and administrators to excel as educators and schools to become the pride of their communities. It enables students to gain greater skills, knowledge and confidence—for becoming the parents, professionals and leaders of our future.

This Introductory Package includes the following:

*The Good School Toolkit: An Overview*

A summary of what it means to implement the Toolkit at your school.

*What Is a Good School? A Companion for Teachers and Students*

A colourful summary of the Toolkit's ideas, ideal for leaving in the classroom or office.

*Four Cartoon Booklets*

A collection of illustrated stories that introduce what it means to create a Good School.

*Five Good School Posters*

A collection of drawings that highlight the qualities of a Good School.

This Introductory Package will explain the Toolkit and all its possibilities, and help you decide if it is something your school would like to implement. If you would like more information, please visit our website at: [http://www.raisingvoices.org/children/good\\_school\\_toolkit.php](http://www.raisingvoices.org/children/good_school_toolkit.php) where you can see the contents of each package in the Toolkit. When you and the appropriate authorities at your school decide that the Toolkit could help you create a better school, please get in touch and we will forward your next package immediately.

If you have any comments or questions after reading this Introductory Package, we invite you to get in touch. We look forward to hearing from you and connecting you to a wide range of educators just like you, who are working hard to create better schools.

Best Wishes,

Dipak Naker  
Co-director, Raising Voices
